Westerdale Municipal Council Meeting

The annual council meeting of the Westerdale Municipality was held at the Municipal offices on Monday afternoon. All the councillors being present. Councillor Géo. Clarke, of Eagle Hill, was elected reeve and Councillor A. Haage was elected deputy reeve. Dr. Clark, of Didsbury, and Dr. Mann, of Olds, were appointed Medical Health officers and Mr. C. E. Reiber was appointed Auditor. A letter was read from the head office of the Bank of Montreal complimenting the district on their splendid financial condition compared with a good many municipal districts in the province.

At the close of the meeting, Reeve Géo. Clarke expressed his regret of the loss of the services of Mr. Norman Clarke and spoke of the work he had accomplished during his long term of office. He also welcomed the new member, Mr. Allen Hunsperger, to the council.

Mr. Norman Clarke replied and thanked him for his expression of good will and he spoke very highly of his successor on the council and said that although he was out of office he would give the council any assistance he possibly could.

The music and the prize will be right on the 30th of March.

14th Annual Farm Young People's Week

The date for the Fourteenth Annual University Week for farm young people has been set for the week of June 2nd to 8th, 1932, and it is anticipated that upwards of 150 farm boys and girls will take part in the conference.

The first farm young people's week was held at the University of Alberta under the direction of the Department of Extension and the College of Agriculture, in 1918. Since then, hundreds of farm boys and girls from every part and corner of Alberta have attended these weeks, and in many districts of the province it has become an established custom to send a number of boys and girls to the University each year.

The young people are sent to the University as delegates of the various Junior U.F.A., U.F.W.A. & U.F.W.A. locals in the province, and each local contributes towards a fund known as the Junior Conference Fund, which is used to defray rail-way fares of the visitors. Accommodation is provided for the week at the University residence, and every precaution is taken by the University authorities to see that the young people are well taken care of during their short stay.

A well balanced program of lectures and demonstrations is provided.

LOCAL & GENERAL

Mrs. McCoy and Miss Black were Calgary visitors last Saturday.

Mr. Harold Hardy was a business visitor to Calgary last week-end.

There will be celebration of the Holy Communion at St. Cyprian's Anglican Church on Sunday, 11 a.m.

Mr. and Mrs. J. W. Milton Ford, and Miss Lucile Smith spent the week-end in Calgary.

The sermon-subject at the Knox United Church on Sunday will be "The Story of the Crucifixion."

Clint Reiber and Charlie Cook were among those who took in the Bronks-Trial hockey game Saturday night.

Miss Alice Pearson is entertaining the Business Girls' Bridge Club at her home on Tuesday evening Mar. 22nd.

Messrs. A. McNaughton and A. Bruce are attending the annual meeting of the Alberta Hall Board being held in Calgary this week.

Stainer's "Crucifixion" will be held in Knox United Church on Good Friday at 8 p.m. by the members of Westcott United Church.

The subject of the sermon at Zion Evangelical Church for Sunday morning, will be: "The Conqueror Christ," and in the evening: "Gideon, and the Cross of Conflict."

"Reaching For The Moon," featuring Douglas Fairbanks and Bob Daniel, at the Opera House, on Thursday, March 24. Another big picture at regular prices.

The C.G.I.T., Taxis and Trail Ranger Groups were very successful in their funds for boys and girls work in Alberta and they wish to thank the people of Didsbury for their generous support.

Messrs. J. A. McGhee and J. McDonald left Tuesday for Edmonton where they will attend the annual convention of the Royal Arch Masons of Alberta, which is being held in that city.

Mr. H. Morgan, our local post master, left for Ottawa on Saturday Mr. Morgan is president of the Alberta Postmasters' Association and has been called to the capital to confer with the House Committee on postal affairs.

"Trader Horn," the African jungle special will be at the Opera House Monday next. In the afternoon there will be a special matinee at 3.30, admission: Adults 25c; Children 15c Admission to the evening show at 8.30 is at the regular price.

"The Star Witness" at the Opera House tonight (Thursday) at 8.30. Power! electrifying! magnetic! irresistible! Mystery, drama and laughs. Also episode 8—"Phantom of the West." After the show, the local Oddfellows will hold their annual St. Patrick's dance. Be sure not to miss this, the "event" of the season. Admission to dance, 50 cents each, including lunch.

Mountain View Council Meeting

The organization council meeting of the Mountain View municipality was held at Olds Monday afternoon, all the councillors being present.

Councillor Flynn was re-elected reeve, and councillor W. J. McCoy, deputy-reeve. Mr. C. E. Reiber was appointed auditor.

Councillor McCoy was appointed as delegate to attend the annual meeting of the municipal hall insurance districts, being held in Calgary this week.

The rates of pay for labor on roadwork were set at: man, 50c per hour; man and team, 75c per hour; single man, 4 horses, 75c per hour; single man, 3 horses, 50c per hour.

It was decided to discontinue supplying gopher poison, and payment of bounty on gophers and other pests will also be discontinued.

The weed inspector was instructed to serve summonses notices in certain cases where the land is badly infested with weeds.

Arrangements were made to obtain the necessary loans for the coming season, and other business of a routine character was transacted.

Didsbury Old-Timers' Re-union at Coast City

On Tuesday evening, March 1st, there was held at the Olympic Hall, Vancouver, B.C., a Didsbury Social, at which about sixteen former Didsbury and district residents spent a very happy and enjoyable re-union.

Mr. Stanley Hardy, to whom, along with Mrs. Hardy and Mr. Albert Howe, the credit is due for making all arrangements, acted as Master-of-Ceremonies.

The evening opened with the Grand March, after which dancing became general. Later in the evening tables were laid and supper was served.

Mr. Stanley Hardy, then, in a few well-chosen remarks, introduced the guest of the evening, Alderman de Graves, of Vancouver, who con-

veyed to those present the good wishes of Mayor L. D. Taylor and the Council of Vancouver, and expressed his very great pleasure at being present at a gathering of this kind.

Jim Reed, Ex-Mэр of Didsbury replied to Alderman de Graves, and spoke of the growth of Didsbury since he first came there, about thirty years ago.

The chairman then called on others to say a few words, among those who spoke being Norman Weicker, Jack Gilmour, Mrs. Macfarlane, Miss Crellin, Alex Hendry, Mrs. Stanley Hardy, and Mrs. Howe.

We would like to give a list of the names of all present, but space prevents. It was indeed a pleasure to see so many well-known faces of friends we used to meet in Didsbury not so many years ago.

The annual picnic of former Didsbury residents now living in Vancouver will be held again this summer, and all Didsbury folk who intend holidaying at the coast will be made very welcome.

Contributed.

Coming Events

Don't forget the local Oddfellows annual St. Patrick's dance in the Opera House tonight (Thursday).

On Thursday evening, March 24, in Community Hall at 8 p.m., a concert will be held under the auspices of the School Fair Assn. Admission: Adults, 25 cents and children free.

We're Sorry Friends

That we were not able to give you the attention we wanted to on our Opening Sale Day, but we hardly anticipated the rush we had.

We thank you for the wonderful response you gave us and look forward to seeing you again before the sale is over.

Truly, Its a Great Sale!

There is only another week until the end of the Sale (March 26th) and to those who have not taken advantage of our Sale Prices, we say COME EARLY

Are We Over-Governed?

Even before existing conditions and present difficulties began to force men in public life, the leaders in finance, industry and business, and overburdened taxpayers in general, to give heed to the cost of operating our governmental businesses, national, provincial, municipal and educational, the question: "Are We Over-Governed?" had sporadically arisen. Many people believed we were, and probably the average man if asked the question would unhesitatingly have answered "Yes," adding "But what can be done about it?"

In answering "yes," Mr. Average Canadian would recognize the fact that in this far-flung and sparsely settled Dominion we have ten Parliaments, ten Governments, ten civil services, to administer the national and provincial affairs of ten million people. That, in addition, we have Commissions, Bureaus, Boards of all kinds; thousands of municipal units, and tens of thousands of boards of school trustees, with a multiplicity of lower, intermediate and higher courts of law. He would be contemplating the enormous annual output of school board and municipal by-laws. Provincial and Federal statutes, rules and regulations beyond computation. "Yes, we are over-governed." he would say, and without actual knowledge of the local government of the Old Country, possibly add: "Look at England, Scotland and Ireland with only one Parliament and one Government for forty odd millions of people."

But in asking, in reply, "What can be done about it?" Mr. Average Canadian would have in mind the fixed constitution of Canada (B.N.A. Act), the written constitutions of the Provinces with their stated boundaries, the strict division of legislative and administrative authority between the Dominion and the Provinces. He would be giving thought to racial differences, to language difficulties, to differences of creed, to separate systems of schools, and, perhaps above all else, to those many local jealousies, sectional ambitions, business considerations—in a word, all the selfishness of more humans individually, and in the aggregate as communities, which would stand in the way of co-operation, co-ordination, amalgamation to bring about a reduction in governmental units. So, with a fatalistic shrug of the shoulders, he exclaims: "What's the use, what can be done about it? It's a mess, but there is no way out, so we might just as well grin and pay the piper."

But now the Canadian people have been paying the piper so long, and the cost of the tunes played have become so excessive, that the grins have faded from their faces, and many are beginning to ask themselves a new question, namely: "Are we as a people so lacking in initiative and determination, so barren of ideas and ability to solve difficult problems, that we have become supine and helpless?" Is it not time that we grappled with this thing that is crushing us and cut off some of the tentacles sucking our economic blood away in taxes?"

The outcome of this new orientation in thought about these matters is the suggestion that the unit of representation in various bodies be enlarged, thus reducing the number and size of such bodies. For example, it is suggested that each of the rural school districts, and even the small rural municipalities which exist in the Western Provinces, have utilized their usefulness; that the isolated school district be abolished and schools within a municipality be administered by one board; that several adjacent rural municipalities be merged into one.

To illustrate, and taking the Saskatchewan rural municipal system for this purpose. A rural municipality consists, as a rule, of nine townships, that is an area 18 miles square. This system was adopted, and the Province so divided, when there were no good roads as we know them, only trails; when there were no automobiles and people travelled on horseback or by buckboard; when there were no rural telephones. Under these conditions an area 18 miles from east to west and 18 miles from north to south was considered quite large enough for local municipal purposes. But today four such municipalities could be merged, providing a municipal unit 36 miles by 36 miles which, with rural telephones, good roads and the automobile could be administered even more easily than the one-quarter of the same area could be twenty-five years ago. Yet the expenses of three municipal councils would be saved, including three municipal offices, three paid secretary-treasurers, three auditors, and many other costs entailed by duplication in overhead administration and management.

This is but a sample of the suggestions being advanced. It is deserving of consideration and discussion at least. The same idea as applied to Provinces will be dealt with in the next article of this series.

One of the most important parts of a new instrument used to measure heart-beats is a gold-plated wire that is so fine as to be invisible to the naked eye.

For Burns and Scalds. Dr. Thomas' Electric Oil will take the fire out of a burn or scald. It should be at hand in every kitchen so that it may be available at any time. Thereby the oil to the burn or scald and the pain will abate and in a short time cease altogether.

Anyways, the husband who succeeds in telling his married friends how to get through the sea of matrimony is some body.

Sorry To See Night Coming
 She Could Not Sleep

Miss E. McElroy, Kirkfield, Ont., writes: "I was very nervous and ran down, was short of breath, and had something feelings, and was very to see night coming as I could not let it down or go to sleep."

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relieved; can sleep all night, and have gained 10 weight."

A "One-Man" Dog

Animal Covers 1,500 Miles in Arctic
 To Find Master

One of the most unusual dog stories in the north country was revealed at The Pas, Manitoba, on the arrival of George Harrison, widely known trapper. Harrison, who returned from trapping north of Indian Lake, 1,500 miles north of The Pas, Manitoba, told of his former lead dog, whom he left with a friend there about a year ago.

The dog was growing old and he decided to give it a good home with a friend when he came in with his catch of furs last season. He left the dog in November of 1920.

Late in January the dog was missing from his home. Three months later, with bleeding paws and reduced to a skeleton, he was waiting to greet Harrison when he got up one April morning. The dog covered the hazardous trail back to his old home in some of the worst weather in history.

Harrison will keep the dog with him because he does not believe he would survive another such trip.

Rheumatism So Bad
 He Had to Quit Work

Albert Berger Not Bothered Since
 Relieved by Dr. Williams' Pink Pills.

Working
 Every Day
 Now.

"I was terribly bothered with a weak back and rheumatism in my right shoulder," says Albert Berger, Windle, Ont. "It got so bad I had to stop work and stay in the house. I was two weeks off, when a friend advised me to try Dr. Williams' Pink Pills. I gave the pills a fair trial, and they relieved me right away. My back is much stronger now, and I am working every day. I have never been bothered with rheumatism since. I recommend them for anyone suffering from rheumatism, lame joints, sciatica, rheumatism and rheumatic ailments than the blood very rapidly." Dr. Williams' Pills enrich the blood stream and create new red blood cells, which is the secret of their success in combating such ailments. Equally good for all roundabout or nervously exhausted people. Try them. At your druggist's, 50c. 273

Honored For Railroad Service

The first woman to complete a record of almost half a century of service in Canadian railroading was honored at Montreal when Miss M. A. McLeod, an employee in the comptroller's office of the Canadian National Railways, received a presentation. Miss McLeod joined the old Grand Trunk Railway in 1886.

Persian Balm preserves and enhances women's natural heritage of beauty. For sheer feminine loveliness it is unrivaled. Tonics and rejuvenators for the skin and nerves it is complete in action. Delightfully fragrant and velvety. It imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially good for making hands soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

Was Slightly Mixed

"Who is the King of England?" asked His Honor Judge F. A. G. Ouseley, while presiding at the naturalizations examinations in Swift Current.

Mrs. R. B. Bennett, "came back the reply from a dusky wobblie citizen of England, 'Aspirin'."

Mother's Worm Powder will purge the stomach and intestines of worms so effectively and so easily and painlessly that the most delicate stomach can bear it. It is a safe and convenient form of worm medicine. They recommend them selves to mothers as a preparation that will restore strength and vigor to their children and protect them from the debilitations of worms and from the degradations of worms.

Determined By Figures

A mathematical formula to enable scientists to determine just how much vitamin "B" a person needs to improve his system has been reported to the National Academy of Sciences by Prof. George R. Cowgill of Yale University.

85 A Royal Recipe

Old Fashioned Plum Pudding Of Queen Victoria's Day

Mrs. W. Austin, of Toledo, is one woman who can keep a secret. For half a century she has kept secret a royal recipe for old-fashioned plum pudding of Queen Victoria's day. It is to be kept secret and handed down as a secret by her daughter.

When 17 years old Mrs. Austin was cook's assistant in the Lion Hotel at Nottingham and received the recipe from the former mistress of the kitchen in the castle of the Duke of Rutland on a promise that it never would be given out or sold. In those days the cooks memorized the recipes, which never were written down for fear they would be stolen. Cleveland Plain Dealer.

Canada's Shingle Output

Shingles to the value of \$9,422,363 were cut in Canada in 1929, according to official returns issued by the Dominion Bureau of Statistics, working in co-operation with the Forest Service, Department of the Interior. Almost ninety-nine per cent. of these shingles were made of cedar.

Miss Elizabeth Roberts, who died at the age of 101 was one of seven sisters of Bank Cottage, Englewood, who never married.

Sweet and palatable Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

After being engaged for 43 years, a Missus couple have been married. They were both from Missouri.

The modern man lays as many as 300 eggs in a year, in contrast to about 26 eggs laid by her distant jungle ancestor.

Another thing that nations owe one another is a living.

"**I'M**
 going, anyway"

THE modern Miss needs no "time out" for the time of month.

If you've ever taken Aspirin for a headache, you know how soon the pain goes. It is just as effective in the relief of those pains peculiar to women.

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always be ready to soothe in comfort. Take enough to relieve your complete comfort. If it is genuine Aspirin it cannot possibly harm you. It is safe, it is strong, and depresses the heart. They do not upset and stop the pain.

Migraines come at inconvenient times. So do colds. But a little Aspirin will also save the day. A headache that has been holding you in misery can be banished to memory with these tablets. Neuralgia, Neuralgia, Neuralgia. Pains that once kept

people home are forgotten half an hour after taking a few of these remarkable tablets. So are the little niggling aches that bother fatigued and "nerves" by day, or a sleepless night.

Genuine Aspirin tablets cost so very little after all, that it doesn't pay to experiment with imitations!

Made in Canada.

Most Of Our Pork Products Go To Great Britain In The Form Of Wiltshire Cut Sides

Canadian swine producers who have made any study of the breeding, feeding and marketing of bacon hogs have come to realize that most of our exportable pork products go to England in the form of Wiltshire-cut sides. They have learned that the term "Wiltshire" is a trade name given to any carcass of pork which is cut in a particular manner. A Wiltshire side is simply half of the hog with the head and feet cut off; the shoulder blade pulled out, and the backbone removed.

Usually these sides are exported from Canada in a pickled or mild cured state. The smoking operation is performed later in England by the large wholesalers and distributors, who vary the degree of smoke with the preferences of the particular market to which any lot of sides is to go.

Questions are often asked as to what cuts are made of the Wiltshire

where an awkward bone, known as the "boister bone," must be removed, which makes slicing difficult and somewhat reduces the value.

"The primal back" (cut C), provides the best rasher in the side as a whole and is the greatest demand. It is usually the most valuable portion; hence the necessity for length in the back, which is required to be level above them the objective of the bacon, which is desired or selected because of the thinness weight and less depth of lean. An important requirement is that a transverse section of the back, cut over the shoulder, should be something like what arched. Where this section is flat above the shoulder it is excessively fat and consequently heavy in that part.

"A straight underling and thickness are essential in the belly, as they denote the 'thin streaky' and the 'flank' cuts H and I, will not be demanded and, consequently, thin. When the belly is thick the value of

tains much gristle and, next to the 'flank' is the cheapest cut of the side."

Figure 3 simply places the cuts which have been described above in relation to the trimmed withshire side. Slight differences in the appearances of some cuts as between Figures 2 and 3 can be accounted for by the fact that when the hog carcass is hung from the rail it naturally stretches out to resemble Figure 3.

From the remarks on the relative retail values of the various cuts it will be seen that swine producers, if they desire to make the most money, will select the highest wholesale and retail prices, must continue to keep before them the objective of the bacon, which is desired or selected because of the thinness weight and less depth of lean. Some seventeen carloads of farmers drove in to the jail yard. Every chair in the reception room was filled so that it was necessary to move up to the jail chapel in order to accommodate those who attended.

Mr. C. M. Learmonth, the Superintendent of Institutional Farms, acted as chairman. The first speaker was Mr. J. E. Bryant, Chairman of the Commission on Conservation, and Minister in charge of Institutional Farms. Mr. Bryant welcomed the farmers and remarked that this was the first time in the history of Canada that a large body of farmers had willingly gone to jail to study farming. At Dartmoor recently the prisoners tried to get out of jail because they did not get sugar on their porridge, whereas to-day a large number of farmers in Saskatchewan had willingly come to the jail so that they might discuss improving farming methods.

Mr. Bryant dealt at length with the Commission on Conservation, pointing out the work which they had accomplished to date and what they were endeavoring to do, giving information on the climatic conditions, on conservation of water and on the agricultural programme, and pointed out the object of the meeting.

Information to this effect was released by Hon. J. P. Lyman, Alberta Attorney-General, in a description of the terms of the three-year agreement just completed between province and Dominion. Headquarters of the R.C.M.P. in Alberta will be in Edmonton April 1. He will hold the rank of assistant commissioner.

The agreement specifies that a force of 220 men is to be maintained in Alberta and that all men, in good standing in the provincial force are to be retained. All of the duties hitherto performed by the provincial police will be performed by the R.C.M.P.

Did Not Check Right

The freight agent on the C. and N. W. Railroad received a shipment which was a donkey, described on the freight bill as "one burro." After checking his goods carefully the agent made his report: "Short, one burro over one jackson."

Magistrate: "The defendant swears he was perfectly sober."

Policeman: "He was absolutely intoxicated. He would have known he was drunk and not made a disturbance."

these cuts is increased. The 'flank' has usually a fair proportion of lean, but this does not penetrate deeply. Flank rashers are normally narrow, and, if the cut is excessively thin, they become objectionably attenuated when fried. 'Thin streaky' suffers from the same disadvantage, but it is normally thicker than the 'flank.' The 'thick streaky' (cut G), depends for quality upon the thickness of the belly at H and I, contains alternate layers of lean and fat, and is of more value than the remainder of the lower cuts on account of its greater thickness and interleaving.

"Breadth, width, and depth to the hams are required in the hams, as these features denote plenty of flesh which is highly desirable in a cut. This is particularly important for the reason that the 'gammom back' (cut K), is retailed at a relatively lower price than more fatty cuts. The upper part of the ham, known as the 'corner gammon' (cut E), contains but little bone; it consists almost entirely of lean flesh and is one of the highest priced cuts of the carcass.

The high setting of the tail is held to denote a higher proportion of flesh in cut "E" than when the tail is set low; on the other hand, a tail set too high frequently denotes an excess of back fat.

"Lightness of the fore-end and shoulder is essential. The 'collar' (cut A), containing overlapping muscles and much gristle, is a cheap cut, its value being also reduced by the fact that the shoulder blade is removed prior to curing of the side, and this makes it a difficult cut to slice. The 'forelock' (cut F), suffers from the same disadvantage as the 'gammom back,' namely an excessive proportion of bone; it also con-

Farmers Meet To Study Methods Of Combating Soil Drifting And Moisture Conservation

One of the most unique agricultural meetings ever held in Canada was held Tuesday, January 26th, in the chapel at the Regina Jail by the staff at the call of the Saskatchewan Department of Public Works. The meeting was largely attended, possibly one hundred per cent, of the farmers in the one-half township area surrounding the jail being present. Some seventeen carloads of farmers drove in to the jail yard. Every chair in the reception room was filled so that it was necessary to move up to the jail chapel in order to accommodate those who attended.

Mr. C. M. Learmonth, the Superintendent of Institutional Farms, acted as chairman. The first speaker was Mr. J. E. Bryant, Chairman of the Commission on Conservation, and Minister in charge of Institutional Farms.

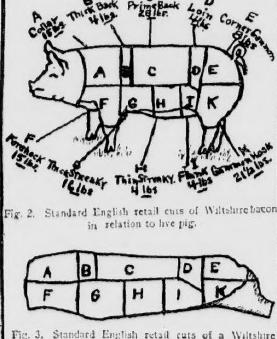

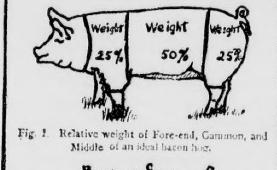

Fig. 3. Standard English retail cuts of a Wiltshire side.

Noted Britishers in Bahamas

Completely recovered from the injuries he sustained when he was run down by an automobile in New York, the Right Honourable Winston Churchill, former Chancellor of the Exchequer of Great Britain, and one of the Motherland's most versatile statesmen, is shown with his beautiful daughter, Diana, as they enjoyed the glorious sunshine at Nassau, Bahamas. The British statesman has returned to United States for his forthcoming lecture tour.

Norman Ross, Director of the Forest Service, Indian Head, said that it was a combination of different methods that would produce the desired results. There was a inability to good times enough to try and develop the best way to do it. He developed the thought that if shelter trees were very good for the garden and buildings, it was logical that they would be equally good for the forest.

Now when Canadian hedges all along the prairie are planted in a line, it is a good idea to plant them in a zig-zag pattern.

W. H. Ford, a prominent farmer from Indian Head, gave his experiences with reference to a hedge-section which he divided with a single caragan hedge planted north and south at right angles to the prevailing winds. Mr. Ford farms on a large scale with power machinery. He was strongly in favor of planting caragan hedges.

**Farmers Lot Not
So Bad, After All!**

The following interesting article
has been taken from the Letter
Column of the Calgary Herald.

Dear Sir:

In nearly every paper one picks
up these days one finds pathetic
articles depicting the sad state of
the farmer. Titles like the following
are familiar to every reader: "The
Farmer's Plight," "Stagnation of
Agriculture," "Farmers Hard Hit,"
etc., etc., until finally one feels that
the poor farmer has fallen off his
horse and that there is none to help
him on again.

Admitting that things are bad,
that the farmer's lot is hard, but he
does perhaps get the short end of
the stick, yet I cannot help but feel
that somehow or other in comparison
with the rank and file of his city
cousins, the farmer's yoke is easy,
and his burden is light.

In a recent issue of your paper
there was set forth in some detail
the plight of the unemployed on
relief in your city. The list included
men in almost all walks of life:
laborers, painters, mechanics, book-
keepers, accountants, lawyers and
preachers; everybody in fact except
editors and a few others accustomed
to starvation. I am not suggesting that I
couldn't help but think how fortunate
the majority of farmers really were.
There are exceptions of course.
Where drought, hail, rust,
cutworms, grasshoppers, wheat stem
awfully, and a host of other enemies,
including inertia, have conspired to
checkmate the farmer's endeavors,
things are bad, but on the whole
his position is rather enviable after
all. His table is well supplied and
his children never cry for bread.
His wife may have a tooth out in
front and may have to wear last
year's hat, but she does it cheerfully
as a rule and is not constantly
harried by the fear of an empty flour
barrel.

For these reasons I like the farm.
True, at the moment we are down
in the valley, but never so deep that
we cannot see the sunshine on the
hills beyond. It is true that the
work is hard, sometimes distasteful,
but I notice that farmers live longer
than most men engaged in other
occupations. Then, too, the farmer
has a feeling of independence and
security that the average business
man knows nothing about. That
helps a lot. There was a time when
a strong back and a weak head
were considered all the qualifications
necessary for success in agriculture,
but today farming calls for as much
intelligence as any other occupation.

In recent years, too, farming has
become more attractive because
there is no longer the isolation of
bygone days. The automobile has
greatly shortened the distance to
market and made the centres of
population more accessible. The
telephone has brought the neighbors
closer together, so that the
womankind are no longer strangers
to one another, and the radio brings
the world's best music and other
entertainment right into the farm-
house. Had our grandparents in
the good old days half the advan-

The death of Mr. John Sick
occurred on Friday at his home
twenty miles east of Didsbury, after
a lingering illness, he having been
injured in an accident some ten
years ago, from which he never
recovered.

Mr. Sick, who was 55 years of
age, was born in Minnesota. He
came to this country in 1901 and
lived at Olds for a short time. He
was married at that place and then
moved to his homestead east of
town, where he has since resided.
He leaves to mourn his loss, his
widow, two daughters and one son,
also three brothers.

The funeral service was held at
the Evangelical Church and was
largely attended by friends and
neighbors. The service was conducted
by Rev. H. J. Wood.

tags we enjoy today, how fortunate
they would have thought themselves.

This winter has convinced me
more than ever before that the farm
is a good place. The times are certainly
hard, I know. There are hardships
to be endured on the farm, but in comparison to the position
of vast numbers of urban dwellers
faced by the constant spectre of
actual hunger and want, the farmer's
position is rosy indeed.

CHAMPIONS TWO YEARS RUNNING

886

This is the story of a great come-
back, a long uphill battle and a final
smashing victory that clinched a title for the second year
in succession. Canadian Pacific
Railway hockey team won the
Railway Telephone League champion-
ship in 1931, but this season
it looked like a walk-over. The
start of the regular season
down to defeat in the first three
games and fans of little faith
were predicting the cellar position.
Then the come-back started.
Little by little the team fought its

way upward, until it ended top
of the heap. It was hard work,
but they never faltered
until they were top of the league.
As the regular season
ended, the second and third teams
fought it out for the right to meet
them. Canadian National's came
through and the two teams
and play-offs were on, two
games with goals to count. The
first game was a one-goal each tie.
The second and decisive game
was a 3-1 win for Canadian Pacific.

Goals to one on the round. Thirteen
thousand roaring fans cheered
them on to victory, the largest
crowd at an amateur game, ever
gathered together at the Forum,
Montreal.

The lay-out shows the team and
officials. Back row left to right,
Dr. Page; P. M. Raymond; Roger
Gaudette; W. F. Kirkpatrick;
F. J. Sullivan; A. A. Miller;
A. Alexander; C. C. Verner;

**WORLD HAPPENINGS
BRIEFLY TOLD**

The Illinois estate of the late W.H. Wrigley, Jr., valued at \$20,235,000, was left largely to his family.

The Canadian Pacific Railway is shipping clairière to prairie points from British Columbia.

Ratification of a definite boundary between Alberta and British Columbia will be sought from the Dominion at the session of parliament.

During January 193,000 gallons of tallow were shipped by prairie meat packers over C.N.R. lines to soap manufacturer in the west.

Moscow's streets are being renamed. "God's House Street" has become "Athiest Street," and St. George Way" now is "Karl Marx Street."

The king's state crown, the most dazzling object in the jewel room in the Tower of London, has been removed for alteration.

A "victory monument" of some ancient ruler, carved long before the days of Columbus, has been discovered in Yunnan, Central America.

Madame Alphonse Bertillon, widow of the famous inventor of the fingerprint system internationally used, died in Paris Jan. 23. She was eighty-three years old.

To safeguard Melbourne, Australia, against water shortage in dry seasons a reservoir has been constructed that next year will have a capacity of 8,500,000,000 gallons.

The Dominion Bureau of Statistics report indicates that in the last three months of 1931 the export of Canadian bacon to Great Britain was 6,497,800 pounds, as compared with 2,297,100 in the last quarter of 1930.

Not one cent of public money has been spent this year to bring immigrants to Canada, F. C. Blair, of the immigration department, said in answer to a report that 200 V.M.C.A. boys were being brought to Canada.

Douglas Egyptian Liniment is remarkable for quick effective action. Relieves inflamed tissues, eases toothache and neuralgia. Invaluable for sore throat, croup and quinsy.

Ancient Tool Found

Specimens of a hitherto undiscovered type of stone-bladed tool, used by stone age people thousands of years ago, were found in South Africa recently. Among the implements are scorpions, gravers and points, but the most characteristic specimen is like a giant crescent.

**Saskatchewan
Motor Licenses**

Minister of Highways Explains
Reasons Why Increase Was
Necessary This Year

Decision of the Saskatchewan Government to increase motor license fees by 50 per cent has been subject of some criticism, and some protests have been received by the Department concerned, according to the Hon. A. C. Stewart, K.C., Minister of Highways.

Discussing the situation, Hon. Mr. Stewart said suggestions had been made that further increase of the gasoline tax might be used as an additional source of revenue and that the motor license fee might be revised downward, if at all. This matter had been carefully considered, said Mr. Stewart, and the motor license fee increase ultimately decided upon for revenue purposes. Elaborating his statement, the Minister said: With practically one quarter of the population of the province not only incapacitated from contributing to the revenue but receiving the help necessary to sustenance from the Government, the urgent need for increased revenue is obvious. In taking this action the Government is merely placing the fee back where it was prior to January 1st, 1920. At that time a regulation reducing the gasoline tax by five cents was adopted, but it was believed however that during the new year there would be an increase in the number of motor license fees, because of the gasoline tax had been increased from three to five cents per gallon. In 1928, when the higher fee was imposed there were 108,670 licenses issued during 1929. In 1930 there were 108,161 private car licenses issued, and in 1931 the figure had fallen away to 91,375 or 16,882 less licenses than in 1930. On the other hand the gasoline tax had been increased from the application for a new one.

**Manitoba May Be
Policied By Mounties**

Province Starts Negotiating For
Taking Over Patrol Work

Negotiations for merging of Manitoba's provincial police force with the Royal Canadian Mounted Police have been started by Premier John Bracken, who discussed the matter with Dominion Government authorities while in Ottawa.

It is estimated in government circles at Winnipeg that the province would save \$10,000 a year in the cost of law enforcement by having the R.C.M.P. take over the duties of the provincial force.

A despatch from Ottawa says the change to the R.C.M.P. force for Manitoba policing has been expected for some time. Indications are not lacking that further developments in due course will bring British Columbia also into this reorganization.

It is known that sentiment in the three maritime provinces is strong for the adoption of this scheme and that, indeed, one of those provinces has asked that its provincial police be trained by the Royal Mounties. Unofficial comment here is that the Royal Mounties will be gradually developed until its duties comprise the policing of the whole Dominion, exclusive of urban municipalities; and that the headquarters here will eventually become a sort of Canadian "Scotland Yard."

Trans-Canada Highway

Ontario Government Asks For Federal Funds To Carry On Work

The Dominion cabinet has under consideration the request of the Ontario government for further appropriation to make it possible to continue work on the trans-Canada Highway. Hon. William Finlayson, Ontario Minister of Lands and Forests, was in Ottawa recently when he laid before some of the ministers the need for additional appropriations. It is contended that unless the appropriations are made it will be necessary to close down the work, throwing some 19,000 men out of employment.

Canadian Bacon Exports

"Feed and Breed" was the call to the farmers of Canada about a year and a half ago when it was found impossible to supply the demand in Great Britain for Canadian bacon. There was a shortage in Canada. A statement issued by the Dominion Bureau of Statistics says that in the last three months of 1931 the export of Canadian bacon to Great Britain was 6,497,800 lbs., as compared with 2,297,100 in the last quarter of 1930.

India exported 55,000,000 pounds of tea in a recent month.

MARGARET PEDLER

The Spice Box
OF THE HERMIT
Holder & Stoughton, Ltd., London

CHAPTER XIII.

"Will You Walk Into My Parlour?"

Jean, scaling leisurely down the river which ran between Staple and Willow Ferry, looked around her with a little thrill of enjoyment—the sheer physical thrill of youth unconsciously in harmony with the climbing sap in the trees, with the upward thrust of young green, with all the exuberant recreation of Nature in the spring of the year.

April had been as it was common- ly in this northern clime of ours, the merest travesty of spring, a bleak, cold month of penetrating wind and sleet, but now May had stolen upon the world almost unawares, opening with tender, insistent fingers the sticky brown buds just curled against the nipping winds, and misting all the woods with a shimmer of translucent green.

Overhead arched a sky of veiled, opalescent blue, and Jean, staring up at it with dreamy eyes, was reminded of the "great city" of the Book of Revelation whose "third foundation" was of chalcedony. This soft English sky must be the third foundation, she decided whimsically.

But the occupation of sky-gazing did not combine well with that of steering a straight course down a stream whose banks hardly entitled it to its local designation of "the river," and a few minutes later the boat's nose camomed abruptly against the bank.

As, however, to tie up somewhere under the trees which edged the water had been Jean's original intention, this did not trouble her overmuch, and discovering a gnarled stump convenient to her purpose, she looped the painter round it, collected the rug and a couple of cushions which she had brought with her, and established herself comfortably in the stem of the boat.

Everyone else at Staple having gone off to school, they afternoon strolled along the little path down from Medies' Butte, the way no immediate hurry to begin its pages. The mallow warmth of the afternoon tempted her to the more restful occupation of mere day-dreaming, and as she lay tucked up snugly amongst her cushions, enjoying the sweet-scented air that played among the trees and over the surface of the water, she allowed her thoughts to drift idly back across the two months she had spent at Staple.

The time had slipped by so quickly that it was hard to believe that rather more than eight weeks had elapsed since that grey February evening when she had alighted on the little, deserted platform at Combe Eavie Station. They had been quiet, happy weeks, filled with the pleasant building up of new friendships, and Jean reflected that she had already grown to look upon Staple almost as "home." She possessed in a large measure the capacity to adapt herself to her surroundings, and realizing that Lady Anne had been perfectly sincere in her expressed desire to play at having a daughter, Jean had, after a first a little tentatively, but afterwards, encouraged by Lady Anne's obvious delight, with more assurance, gradually assumed the duties that would naturally fall to the daughter of Jacqueline.

Sit Adrian Latimer had been the chief pleasure in life seemed to be to thwart and humiliate his wife in every possible way, and once, in an access of indignation over some small refinement of cruelty of which he had been guilty, Jean had

written him; he warned her not to expect further letters from him for some time to come as, according to his present plans—which he volunteered no particulars—he expected to spend the next few months "as far from civilization as the restricted size of this world permits."

With this letter it seemed to Jean as though the last link with her former life had snapped. She felt no regret, Biernfels, and the unconventional, rather exotic life she had led there—dictated by her parents' whims and the practically unlimited wealth to gratify them which Peterson's hair for successful speculation had achieved—seemed very far away, and Staple, with its peaceful, even-flowing English life, very near and enfolding.

Her first visit to Churnwood had been a disappointment. Under changing ownerships, little now remained to remind her of the generations of Petersons who had lived there long ago. Such of the old pieces of furniture and china as Peterson had not considered worth transferring to Biernfels at his father's death had been bought by the next owners of the place, and had been taken away by them when they, in their turn, disposed of the property. Only one great square stone remained, sunk into one of the walls and bearing the Peterson coat of arms and the family motto: "Omnia debet Deo."

Sit Adrian Latimer had translated this words to Jean with a cynical gleam in his heavily-lidded eyes and accompanying the translation by a caustic reference to his father. The dog had not so far diluted his intellect. On the contrary, it seemed to have had the opposite effect of endowing him with an almost uncanny insight into people's minds, so that he could prick them on a sensitive spot with unerring accuracy and a diabolical enjoyment of the process.

Jean's sympathy for his wife was boundless. A great affection had sprung up between the two girls, and bit by bit Claire had drawn aside the veil of reticence, letting the other see into the arid, bitter places of her life.

Jean could understand, now, what Claire had been thinking on the occasion of their first meeting, when she had spoken of the influences of the people who inhabit a house. The whole atmosphere of Churnwood seemed permeated with the influence of Adrian Latimer—a grey, sultry, unwholesome influence, like the mist-mane which rises from some poisonous swamp.

The hell upon earth which he contrived to make of life for his young wife had been a revelation to Jean, accustomed as she had been to the exquisite love and tenderness with which her father had surrounded Jacqueline.

Sit Adrian's chief pleasure in life seemed to be to thwart and humiliate his wife in every possible way, and once, in an access of indignation over some small refinement of cruelty of which he had been guilty, Jean had

"PAINS ALL OVER ME"

Rheumatism Again!

And once again it was the "little daily dose" of Krukenhoff that conquered it. In fact, it made this sufferer "feel ever so well."

I thank you, dear Krukenhoff Salts

for having got in the back,

head and joints? pain all over me,

I felt tired to bed, tired getting up to work, tired getting to bed,

I lay in bed for over a month,

doctor who came attended me said I was

suffering from acute rheumatism;

in less than 3 months I feel very well,

I can't thank you enough for

Krukenhoff Salts."—G. O.

This is what I say to Krukenhoff Salts

drugs from your body and you will

need crystals which cause your pain,

You pains ease: knotted joints

she had never "belonged" at Biernfels.

There, Glyn and Jacqueline had turned to each other for counsel in the little daily viscidissimes of life

equally as in its larger concerns, and

Jean had learned to regard herself as

more or less outside their lives.

She had had one letter from Peter-

son since her arrival at Staple,

a brief, characteristic note in which

he expressed the hope that she liked

England "better than her father ever

could" but suggested that if she were

bored she should return to Biernfels,

and ask some woman friend to stay,

SOUR STOMACH

JUST a foolish dose of Phillips' Milk of Magnesia in water. This is an alkali, effective remedy. It has been the standard antidote for 50 years. One spoonful will neutralize any amount of acids in a meal. It is the best, easiest, most rapid, safe and efficient way to kill all the excess acid. The stomach becomes sweet, the pain disappears. You are again young and vivacious.

Don't depend on crude methods. Employ the best way yet evolved in all the world for soothing that! That is Phillips' Milk of Magnesia. Be sure to get the genuine.

The ideal dentifrice for clean teeth and fresh breath. Contains Dental Magneka, a superior tooth-paste that safeguards against acidosis. (Made in Canada.)

declared her intention of giving him her frank opinion of his behaviour. She had never forgotten the look of bitter amusement with which Claire had given the suggestion.

"Do you know what would happen? He would listen to you with the utmost politeness, and very likely let you think you had impressed him. But afterwards he would 'make pay—for a day, or a week, or a month. Till his revenge was satisfied. And he would put an end to our friendship——"

"He couldn't!" Jean had interrupted impulsively.

"Couldn't he? You don't know Adrian . . . and I can't afford to lose you, Jean. You're one of my few comforts in life. Promise me"—she caught Jean's hands in hers and held them tightly—"promise me that you will do nothing—that you won't try to interfere? I can generally manage him—more or less. And when I can't, why, I have to put up with the consequences of my own bad management"—with a smile that was more sad than tears.

(To Be Continued.)

Little Helps For This Week

"Behold, the tabernacle of God is with men, and He will dwell with them."—Revelations xxii. 3.

How far from here to heaven?

Not very far, my friend:

A single, hearty step

leads to the golden city end.

Hold then! What's running thou?

Heaven is within thee.

Seekst thou for elsewhere,

His face thou'll never see.

—Angelus Silesius.

If that thou seekest thou findest not within thee, thou wilt never find it without thee.—Arabian.

Moses asked of God where He was, and God said: "Know that when thou hast sought me, thou hadst already found Me."—Arabian.

A woman writer remarks that there are many people who cannot live on an income of \$5,000 a year. We must admit that we have never done it.

Ant-Tuberculosis Vaccine

New Discovery Establishes Complete Immunity for Disease, Is

Report

Henri Spaldinger, director of the Institut Bacterio-Therapeutique at Geneva and noted authority on tuberculosis, has published a formula for anti-tubercular vaccine, which, he claimed would establish complete immunity to the disease in human beings.

Spaldinger's announcement came at the conclusion of years of intensive research during which he used up his entire personal fortune of \$100,000. He was able to continue his work only through the financial aid of the Aga Khan, the Duke of Westminster and others who appreciated the importance of the problem he sought to solve.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility and lack of energy which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years. A trial will surely convince you.

COMFORT

for COLICKY BABIES

. . . THROUGH CASTORIA'S

GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire digestive tract open from the outside. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently treated this just time. Castoria, you know, is made specially for babies and children; it is a pure vegetable preparation, perfectly harmless. It comes in a bottle designed for babies. For years it has helped mothers through trying times with colicky babies and children suffering with digestive upsets, colic and fever. Keep gentle Castoria on hand, with the name.

Mountain View Notes

Mrs. T. Findley left last week for the U.S.A., owing to the illness of a relative.

Mr. H. Roberts reports the birth of several lambs during the recent cold spell.

The monthly meeting of Mountain View W.L. was held at the home of Mrs. Shultz yesterday. (Thursday)

The newspapers report a visit to Canada by Sir Martin Harvey, and several local residents are regretting their being unable to once again see this most noted British actor.

Springside Notes.

Toimie was a visitor at the Hardy home on Sunday.

We wonder if George went out west last Sunday.

Roy McNaughton made a flying trip to Calgary on Monday.

The Misses R. Gabel and M. Hardy spent Sunday at the latter's home.

We are always looking to see Gee, Innes come tearing down the road now.

Next Friday night is our regular get-together night. Those in charge have let us understand there will be some innovations, so come and see what they will be.

We are pleased to hear that Mr. F. McDonald is recovering speedily after his recent operation. Mr. T. Cullingham is also coming along nicely after his illness.

Some people have always got some predicament or other to face, such as last Friday night when a person had three chances of coming out, and misses all three, to finally come along with a fourth party in the big hours.

The dance held at the schoolhouse last Friday night proved a big success, things turning out better than the organisers expected. Of course there were a few hard-time stories. We hope to announce another "hop" soon.

The present correspondent wishes to state that from now on the notes will be taken care of by a new reporter. Try and find out who it is.

Melvin Notes

April 1st, is a big night at Melvin. Watch for further announcements.

Mr. and Mrs. August Krebs spent Sunday at Mr. and Mrs. Otto Krebs.

Mr. and Mrs. Emil Krebs spent Sunday with Mr. and Mrs. Ben Kershaw.

Congratulations are extended to Mr. and Mrs. Edwin Jackson on the arrival of a daughter.

Mr. Leeson's sister, Mrs. S. D. Arison, of Basswood, Manitoba, spent the week-end with Mr. and Mrs. Leeson.

Miss Ruth Johnston, who has been staying with her sister, Mrs. S. Vetter, of Three Hills, spent the weekend at her home here.

We are sorry to hear that Mrs. C. Youngs has been ill for some time. It is hoped she will be about again soon.

The whist drive at Melvin school last Tuesday night was a great success. Miss Alva Fisher won ladies' first prize and Mr. Irvin Klein won gent's first prize. Mrs. C. G. Carlson and Johnny Cole won the consolation prizes.

Westcott Notes.

The last meeting of Westcott W.L. was held at the home of Mrs. A. Robertson on March 3rd, with fourteen members present. The meeting opened with a song and was followed with the creed. Roll-call was answered by giving the name of some great statesmen. A three-minute talk on the League of Nations was given by Mrs. R. Webster. Entertainment was provided by a couple of selections from the phonograph, and two contests. The meeting closed with a song, and lunch was served by the hostess.

Innisfail Retrieves Cup.

The Didebby Lady curlers were unable to hang on to the cup they won from Innisfail, Tuesday of last week. Two sinks came down from Innisfail Friday evening and were successful in retrieving the trophy.

The ice was in excellent condition and there was some very good curling, the score see-sawing back and forth until the last two ends when Mrs. Hall got a three-ender on Mrs. Evans, and she also just one up on the last end. Mrs. McEwan's rink led their game all the way. The games ended with Innisfail being two up. The scores were:

Innisfail. Innisfail.

Mrs. McEwan 10. Mrs. Watt 7.
Mrs. Evans 7. Mrs. Hall 12.

The personnel of the rinks were:

Mrs. McEwan, Mrs. Ranton, Mrs. Phillips and Miss McMow.

Mrs. Evans, Mrs. Fisher, Miss Clements and Miss Lucille Smith.

Innisfail.

Mrs. Hall, Mrs. Percy, Mrs. Kirkham and Mrs. McWhinney.

Mrs. Watt, Mrs. Miller, Mrs. Cousins and Miss Cousins.

On Monday afternoon two rinks of lady curlers from Crossfield came to play a friendly game with the Didebby ladies. The ice was in a very poor condition and the games had to be called before the finish.

On Tuesday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Wednesday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Thursday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Friday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Saturday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Sunday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Monday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Tuesday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Wednesday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Thursday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Friday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Saturday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Sunday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Monday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.

On Tuesday evening, Innisfail and Didsbury ladies met in a friendly game. Innisfail being again successful on the total scores. Mrs. Evans got the best of Mrs. Percy by 15-4, but Mrs. Ranton lost to Mrs. Cousins by a score of 16-3.
